Professional name: Teesha Khandale. I transitioned and now use Teesha Khandale; some existing professional accounts and records may still use my previous name, Tejas Khandale.

Education

Bachelor of Computer Science — Nowrosjee Wadia College, Savitribai Phule Pune University — Graduated 2024

Work History

Founder & Full Stack Engineer at WashyWashy, Pune 2024 to 2026

- Built and launched a production doorstep car washing platform from scratch, including the customer web application and internal operations platform.
- Designed backend architecture, REST APIs, database structure, and application workflows.
- Built frontend interfaces and responsive experiences using modern JavaScript frameworks.
- Implemented booking, scheduling, service management, and operational workflows.
- Deployed and maintained the production application and improved it using real customer feedback.
- Scaled the platform to 100+ completed customer orders and ₹30,000+ lifetime revenue.

Software Engineering Intern at Inflection Zone Dev Labs August 2022 to February 2023

- Worked alongside senior engineers building production software for client projects.
- Implemented new features across frontend and backend systems.
- Debugged production issues and resolved software defects.
- Worked with Git workflows, collaborative code reviews, testing, and deployment.

Freelance Software Developer at International Clients February 2020 to August 2024 | Remote

- Worked with international clients, startups, and agencies across web development, SEO, and digital marketing.
- Delivered production-ready web applications and technical solutions.
- Gathered business requirements and translated them into software from planning through deployment.
- Collaborated directly with founders and non-technical stakeholders across multiple countries.
